SUMMARY

I'm a Computer Engineering undergraduate at Brawijaya University. Experienced and passionate to web and Android app development. I'm capable of working individually and active team player. I'm dedicated to a continuous learning mindset, constantly seeking new knowledge and skills in diverse software development areas, with a strong focus on enhancing job efficiency and effectiveness.

EXPERIENCE

Mobile Development Cohort

02/2023 - Present

Bangkit Academy 2023

- Developing Android applications following Google's Android Architecture Components
- Building Online-Offline Applications using Room Database for local storage and Retrofit for API communication.
- Building applications that implement features such as Soundpool, MediaPlayer, and ExoPlayer.
- Integrating Services, Background Tasks, and Schedulers in the application.

Website Development

09/2022 - 12/2022

Developing a Wedding Organizer Website

- Implement web design view on time with React.
- Building responsive and user-friendly web application with Material UI framework.
- Manage state within the project with React Context and Redux.
- Develop a feature to restrict users from accessing web pages depending on their role.

Website Development

07/2022 - 08/2022

Developing a Village Profile Website

- Building web application using PHP and Laravel as framework for Back End.
- Using Bootstrap as CSS framework to make fully responsive and user-friendly web application.
- Apply smooth on-scroll animation to the website using AOS library.
- Separate HTML file to make reusable layout.

EDUCATION

Computer Engineering

2024

Brawijaya University - S1

- Managed to achieve a GPA of 3.94 / 4.00.
- Won the work ethic workshop held by Computer Engineering Department as the best group.

CERTIFICATES

Belajar Prinsip Pemrograman SOLID

05/2023 - 05/2026

Belajar Membuat Aplikasi Android dengan Jetpack Compose

05/2023 - 05/2026

Belajar Pengembangan Aplikasi Android Intermediate	05/2023 - 05/2026
Belajar Dasar UX Design	05/2023 - 05/2026
Belajar Fundamental Aplikasi Android	04/2023 - 04/2026
Belajar Membuat Aplikasi Android untuk Pemula	03/2023 - 03/2026
Memulai Dasar Pemrograman untuk Menjadi Pengembang Software	03/2023 - 03/2026
Pengenalan ke Logika Pemrograman (Programming Logic 101)	03/2023 - 03/2026
Belajar Dasar Git dengan GitHub	03/2023 - 03/2026
Memulai Pemrograman Dengan Kotlin	02/2023 - 03/2026

SKILLS

Kotlin	Javascript
Android Development	NodeJS
Jetpack Compose	HTML5
Android Architecture	CSS3
Component	ReactJS
SOLID Design Principles	GIT (Version Control System)
Web Development
